COMPANY OVERVIEW

Illuminated Lighting Design Services, LLC (ILDS) is a Florida-based firm specializing in code-compliant lighting solutions for both residential and light commercial spaces. With over 100 years of combined team experience, ILDS delivers lighting designs that prioritize performance, aesthetics, and energy efficiency.

The firm collaborates closely with architects, interior designers, contractors, and homeowners to bring concepts to life as fully realized lighting environments. Every project is supported by AutoCAD documentation and fixture specifications, ensuring seamless coordination from design through installation.

ILDS is manufacturer-agnostic, allowing for flexible product sourcing that meets both design intent and budget. Whether integrating linear LEDs into millwork or highlighting architectural features, ILDS brings precision and creativity to every lighting application.

PAST PERFORMANCE

VENDOR

DIFFERENTIATORS

INDEPENDENTLY DRIVEN, CLIENT-FIRST DESIGN

ILDS operates as an independent lighting design firm, not tied to any manufacturer. This means:

- ✓ You get solutions built around *your needs*, not a particular brand being pushed.
- ✓ We have complete flexibility to integrate the *most efficient and high-performing* fixtures and technologies available.

PHOTOMETRICS EXPERTISE & CODE PRECISION

- ✓ We deliver comprehensive photometric analysis, both interior and exterior, to ensure optimal light levels in accordance with IES standards and local ordinances.
- ✓ Whether it's upgrading HID to LED or starting new projects from scratch, ILDS ensures **code compliance, energy efficiency, and visual performance.**
